RECIPE FOR GOOD TIMES

Delicious food. Good company. Uplifting surroundings. Put them together and you get the special something that makes a good meal a great one. At Duni, we call this magic ingredient goodfoodmood.

EXPRESS YOUR CREATIVITY WITHOUT LIMITS

Everything we do is designed to help you create goodfoodmood *your way*. Start with the choice of matching napkins, table covers, candles and accessories we offer:

this gives you virtually infinite ways to fill the air with anticipation, cosiness and joy.

CARE FOR YOUR GUESTS AND THE ENVIRONMENT

Then there's the convenience of single-use: with our collection you never have to decide between style, functionality and practicality. What's more, the eco-conscious, top-quality materials we use for our products let you add extra feel-good factor to any occasion. Enjoy!

MINDFUL MATERIALS

At Duni we are all about goodfoodmood. And we believe that there can be no real goodfoodmood, if we do not operate responsibly. That's why we handpick the raw materials we use for their light ecological footprint.

Aside from material from responsibly managed forests, we utilise left-overs from sugar production, as well as corn starch, sugar and chalk in our products. That way, when you choose our products, you can depend on them to perform well and show you care for the environment.

Bagasse is the fibrous matter that remains after the juices are extracted from sugarcane. In the past, it was just burnt in the sugarcane fields. Now we use this biodegradable resource for creating eco-friendly plates and bowls. Once composted, it turns to soil after a few weeks.

Chalk is a porous limestone material that is employed in many different areas. Naturally abundant and environmentally harmless, we use it as a 'filler' that gives our Dunicel® table covers a rich, linen-like quality.

The water-based **inks and dyes** we use in our colourful products don't contain the solvents that other inks and dyes do: they contain no harmful chemicals. What's more, they are approved for use in food contact and compostable materials. In fact, all of our unicoloured napkins and most of our table covers are compostable.

Corn starch is the foundation for the production of polylactic acid (PLA), a transparent plastic used in plastic containers, cups and bottles. Bioplastics like PLA are key to combating climate change. Not only is PLA compostable; it also provides an eco-conscious alternative to fossil fuel based plastics.

Stearin is a renewable material used in the production of candles. It is manufactured from vegetable or animal fats and oils – the latter a by-product from the agricultural industry. The Swan Nordic Ecolabel on our stearin candles verifies they are made from 100% traceable and renewable material.

For our napkins, table covers and plates, we use **forest fibre based materials** from forests that are FSC®-certified as responsibly managed. These have a low carbon footprint and support our strategy to protect forests and biodiversity.

FOREST FIBRE
BASED MATERIALS

ecoecho® LEAD THE WAY

The future is in our hands. Through the choices we make on a daily basis, we have the power to make a real difference.

Mindful of this, we have developed the ecoecho range. Whether you are hosting a picnic or setting the table for a party, it lets you lead the way when it comes to combining sustainability, quality and style.

The range provides a wide selection of designs, materials and colours. These enable you to create a seamlessly stylish look, care for the environment, and fill the air with goodfoodmood.

A HIGH STANDARD

To qualify as ecoecho, a significant part of the product must live up to at least two of these environmental standards: resource efficiency, renewability, compostability or responsible sourcing. Furthermore, all ecoecho items are independently tested to ensure optimal sustainability.

"As designers, we can provide new ways to improve quality of life; new ideas that help to shape the way we live today. By creating products with a conscience we can empower people."

THE NEW FALL

This fall unites cerise, teal, fiery orange... and a touch of green. It brings together the beautiful autumnal colours that paint the landscape, just before it becomes a sea of earthy shades.

COMPOSTABLE UNICOLOURS

At Duni we are proud to be the first to offer such a wide range of compostable unicoloured napkins and table covers. These bring virtually limitless opportunities to create a colourful mood and still care for the environment. That's good news for consumers, their guests – and nature!

GOODFOODMOOD PALETTE

Colour is Duni's heart and soul, and each nuance in the Duni assortment is picked with the utmost care and respect. Today our unicolour range contains 19 colours: one for every mood, occasion and trend.
